I CAN BE ANYTHING TEACHERS GUIDE

The idea for this project started when a group of Year 6 pupils were able to ask our amazing nurses some questions over zoom. They were very interested in their journey and whether they had always wanted to be nurses, with many of the pupils wanting to grow up to be nurses themselves. This sparked the idea for our "I can be anything" project. We sent out questionnaires to all of our staff to get the inside scoop on who they are and how they got here. Then the pack of profiles was born! We hope these will be useful to young people to see what sorts of medical or non medical jobs can be available in the future and maybe inspire them to go for a career they hadn't even thought about before. Our staff are one of the things that make Claire House a very special place, so we love telling everyone all about them and we felt this was the perfect way to do it!

WHAT IS THIS PROJECT ABOUT?

- An opportunity to tell you all about our amazing staff at Claire House.
- Wanting to help young people understand their options for when they grow up and shine a light on how many different roles there can be within the charity sector.

WHY USE IT?

- To learn more about Claire House
- To teach young people about the different roles there are in the organisation, how people came to be in those roles, what directions they took in life etc.
- To possibly spark interest in certain roles/routes into certain careers.

HOW AND WHEN CAN YOU USE IT?

- In assembly- Use the PowerPoint to learn more about our staff and maybe spark an interest. The pack could be left somewhere for children to look over if they are interested.
- In a PSHE lesson. Use the lesson plan and lesson activities included to learn about the roles in more detail.

WHAT'S INCLUDED?

THE PROFILE PACK

This pack includes profiles of staff from all over the organisation. It is colour coded so you can find a certain area quickly. Each profile includes answers to a questionnaire we sent them about their role at Claire House and how they came to do the job they do.

THE POWERPOINT

This holds more information about Claire House itself and cuts down some of the information in the profile pack to what the job is and what staff do day to day in their roles.

THE LESSON PLAN

This lesson plan was created as an idea of how these packs can be used in a lesson to learn about Claire House but with a focus on their future.

THE MATCHING GAME

The matching activity is a simple recap on what was learnt in the PowerPoint. Children are asked to match the job role with the description.

THE SCENARIO ACTIVITY

This activity involves a bit of debating. There are 4 scenarios that would happen at Claire House and children must decide who can help. There are no right or wrong answers as long as they can justify why they think that.
